The "Index" to the Rubber Industry—

1939 RUBBER RED BOOK

This new edition of the RUBBER RED BOOK, Directory of the Rubber Industry, is even more complete and up-to-date than the first edition. Including as new features lists of Technical and Trade Organizations, Sales Agents and Suppliers' Branch Offices and an extensive Who's Who in the Rubber Industry, and furnishing as it does complete information on rubber manufacturers, chemical suppliers, machinery and equipment, fabrics, reclaim, and a host of other products used by the rubber industry, the Directory has rapidly become one of the "must" books of every purchasing agent and technologist. If you do not have your copy already, order it now, and have the rubber manufacturing industry at your fingertips.
